Security

All calls made must adhere to the guidelines presented in the [MaaS REST API Security Protocol document](#).

Definitions

Term	Definition
JSON	Stands for JavaScript Object Notation and is used for the request and response formats due to its portability and simplicity.
RFC 3339	A date format that "provide[s] an unambiguous and well-defined method of representing dates and times." See http://www.ietf.org/rfc/rfc3339.txt for more details.
